

## Webinar Demonstrates Femap Tips for Increasing Productivity

Westminster, CA. September 14, 2009. NEi Software is hosting a webinar titled "Femap Tips for Increasing Productivity" on **September 23 at 11:00 AM PDT**. The webinar is intended to provide engineers and designers who are currently using Femap tips and tricks to help increase productivity with the software. For people who are not currently using Femap, this webinar will be an introduction to the Femap interface and its powerful capabilities.

In addition to tips and tricks, there will be an introduction to scripting in Femap. Through the use of Program Files or API Programming, Femap can automate repeatable tasks.

New features and functionality in Femap 10.1 will also be discussed.

To reserve your seat go to [www.NEiSoftware.com/webinar/FemapTips](http://www.NEiSoftware.com/webinar/FemapTips).

### About NEi Software

NEi Software is a global provider of innovative Finite Element Analysis (FEA), engineering simulation, and virtual test software. The core product NEi Nastran is a powerful, industry-proven FEA solver that performs linear and nonlinear structural stress, dynamics, and heat transfer analysis. NEi Nastran works with a wide portfolio of pre and post processors including Femap® by Siemens PLM Software, in-house products NEi Fusion™ and NEi Works™, as well as major industry brands. In addition, NEi Software's portfolio includes products for impact, kinematics, fatigue, optimization, aeroelasticity, and Computational Fluid Dynamics (CFD) with support for a full range of materials from composites to hyperelastic rubber. NEi Software covers the different needs of each stage of the product development process. From designers looking for affordable, easy-to-use, CAD-based simulation for validation and trade-off studies to dedicated FE analysts looking for high accuracy, productivity, and real world fidelity. The website features case studies in aerospace, automotive, maritime, military, civil, petroleum, medical, and consumer products with videos, webinars, tutorials, and options for evaluation.
